URBIS SHOPPING CENTRE BENCHMARKS 2022 31ST EDITION

The annual Urbis Shopping Centre Benchmarks report has been the industry's bible since 1992. Our interactive dashboard is back with all the details you need to better understand and benchmark your shopping centre's performance against multiple metrics. The report provides a comprehensive set of indicators and benchmarks covering the composition, performance and occupancy rates of Australian shopping centres.

The Benchmarks series draws on our economic and property research expertise to provide an accurate picture of shopping centre performance and tenant mix across Australia. We identify the fastest growing specialty categories, outline the size and composition of centres across Australia, and provide insight into the evolution of shopping centres including the impact of international mini-major stores and nonretail uses.

This year we surveyed 465 centres, reporting turnover of \$74.3 billion across 25,062 retail tenants.

Conditions

Urbis Pty Ltd retains copyright in the information published in the Urbis Shopping Centre Benchmarks 2022. The publication is available only in soft copy format and purchasers and users of the publication are therefore required to agree as follows:

- Not to reproduce, transmit or copy any part of the publication without the prior written permission of Urbis Pty Ltd.
- 2. Users may reference specific results and benchmarks from the Urbis Shopping Centre Benchmarks 2022 without infringing copyright. All references to results of the publication, whether for internal use or for external publication, must be sourced to Urbis, Urbis Shopping Centre Benchmarks 2022.

Pricing policy

The Urbis Shopping Centre Benchmarks are the premier annual benchmarks for the composition and performance of Australian shopping centres. Separate volumes of the report are produced for several different categories of shopping centre, currently Regionals, Sub-Regionals, Supermarket and CBD.

The definitions of centre types are found in the "Key Definitions" appendix in each of the published reports. Urbis produces the Benchmarks each year in order to build the collective knowledge of the shopping centre industry in Australia. The production of the Urbis Shopping Centre Benchmarks is the result of co-operation between Urbis and major owners and managers of Australian shopping centres. These owners and managers provide, on a confidential basis, the relevant information for individual shopping centres in a format specifically designed to enable input into the Urbis Benchmarks and thus allow valid comparison within each category of centre.

Significant time and resources are invested by the owners/managers to undertake this survey and that effort is rewarded by way of free access to each volume of the Benchmarks for the contributors to each category. The objectives of the Urbis Shopping Centre Benchmarks Pricing Policy are to: A) Recognise the contribution of shopping centre owners & managers to the production of this information, B) Maintain equity in treatment of all owners, managers and other relevant parties, C) Enable Urbis to produce the Shopping Centre Benchmarks on a sustainable financial basis. In relation to Pricing, our policy is that Urbis will: A) Provide all Eligible Contributors who contribute data for their full portfolio with complimentary access to the dashboard for any Shopping Centre Benchmarks volume to which their data has contributed. Eligible Contributors are those organisations which provide data relating to an individual category of centre and in the agreed standard format. For example, an owner supplying data for 3 Supermarket based centres and 2 DDS based centres would be entitled to both the Supermarket and Sub-Regionals reports. That owner would not be entitled to reports for other centre types. B) Make access to the Urbis Shopping Centre Benchmarks dashboard commercially available to all parties involved in the retail shopping centre industry at a price that enables Urbis to recover the annual cost of production and on-going development. C) Charge all organisations the same published price for all Urbis Shopping Centre Benchmarks reports.
